INTRODUCTION

This catalogue is produced by the Departmental Statistics Division of the Department of Indian Affairs and Northern Development and is designed to provide details of data stored in the Statistical Information Centre.

Since the Centre was established in 1968, there have been increasing demands for data relating to the Indians and Eskimos of Canada and also to other areas of the Department's operations. Users, however, have not always been aware of the data available. The catalogue has been compiled in the hope that users will more easily find statistical material to meet their needs.

Plans are to update the catalogue semi-annually. Users are invited to submit to the Centre data which they have in their possession and which they feel may be of interest and use to others.

Anyone who is not on the catalogue mailing list and who wishes to be included should complete and forward the order form at the end of this publication.

INTRODUCTION

The catalogue of statistical data issued in March 1971 by the Department of Indian Affairs and Northern Development has now been up-dated. Revisions and additional data are included in this, the second issue.

Users are again invited to submit to the Centre reliable data which they have in their possession and which may be of interest and use to others.

The catalogue mailing list has been compiled to include all organizations with a continuing need for statistical data. If there are any changes in title or address, the order form at the end of this publication should be completed and forwarded. Additional copies of the catalogue are available and individual users may wish to complete the form if they have a requirement for the catalogue.

INTRODUCTION

On a maintenant terminé la révision du catalogue de données statistiques publié, en mars 1971, par le ministère des Affaires indiennes et du Nord canadien. Les modifications et les données supplémentaires sont incluses dans la présente édition, qui est la deuxième.

Les usagers du catalogue sont de nouveau invités à présenter au Centre les données sûres dont ils disposent et qui pourraient être utiles à autrui.

La liste d'envoi pour le catalogue comprend les noms de tous les organismes qui ont un besoin continu de données statistiques. Si le titre ou l'adresse a été modifié, on doit remplir et expédier la formule de commande figurant à la fin de la présente publication. On peut en outre obtenir des exemplaires supplémentaires du catalogue; il suffit alors de remplir et d'envoyer la formule en question.

INTRODUCTION

The Statistical Information Centre of the Department of Indian Affairs and Northern Development gathers data on all aspects of the departmental programs in national and historic parks, Indian and Eskimo affairs and in the development of the Canadian north. Most of the data are tables in document form and are supplied to users for a variety of purposes. A copy of any particular table may be obtained by following the instructions on page iv. As an additional service the centre maintains a number of reference books for local users in Ottawa. Unfortunately, it is not possible to extend this service to users outside Ottawa.

This is the third issue of the Catalogue of Data in the Statistical Information Centre and it lists all material at present on hand in the centre. The catalogue is updated semi-annually and with this issue the distribution has been greatly increased to make the service more widely available to potential users.

INTRODUCTION

Le centre d'information statistique du ministère des Affaires indiennes et du Nord canadien réunit des données sur tous les aspects des programmes ministériels ayant trait aux parcs nationaux et aux lieux historiques, aux affaires indiennes et esquimaudes, et au développement du Nord canadien. La plupart des données sont présentées sous forme de tableaux; pour obtenir un exemplaire d'un tableau, le client éventuel doit suivre les instructions figurant en page iv. Le Centre a aussi accumulé une bibliothèque de référence à l'usage des utilisateurs d'Ottawa; malheureusement, il lui est impossible de mettre cette bibliothèque à la disposition de gens de l'extérieur.

Le présent ouvrage constitue la troisième édition du Catalogue des données du Centre d'information statistique, qui est remis à jour deux fois l'an. On y trouve un répertoire de toute la documentation du Centre. Dès la présente édition, on donnera au catalogue une plus grande circulation, afin d'informer un plus grand nombre d'utilisateurs éventuels de l'existence du Centre.

 - a) les numéros des pages du catalogue;
 - b) toutes les statistiques voulues;
 - c) les années pour lesquelles on désire des renseignements;

INTRODUCTION

This is the fourth semi-annual issue of the Catalogue of Statistical Data, first published by the Department of Indian Affairs and Northern Development in March 1971. Numerous additions have been made to the listings, reflecting new and updated material which has been obtained so as to broaden the coverage of all aspects of the departmental programs in Administration, National and Historic Parks, Indian and Eskimo Affairs and in Northern Development.

All of the data are stored in the Statistical Information Centre in the Centennial Tower, Ottawa, and most are in the form of separate documents enabling specific items to be photocopied and supplied to users. Specific requests should be sent direct to the Information Centre as outlined on page vi. Every effort will be made to meet such demands speedily and accurately although the Centre reserves the right to deny requests which it feels are not justified in terms of the cost and labour involved.

For users in the Ottawa area the Centre maintains a small library of statistical reference books which may be used on the premises. Unfortunately, it is not possible to extend this service to those at distant points.

To keep the mailing list up to date users are requested to notify Departmental Statistics of any cancellations or amendments. There is a form at the back of this catalogue for the convenience of users who wish to have changes made to the listing.

INTRODUCTION

Le ministère des Affaires indiennes et du Nord présente le quatrième catalogue semi-annuel de données statistiques, dont la première édition remonte au mois de mars 1971. Nous avons apporté de nombreux compléments au répertoire afin de faire connaître les documents nouveaux et mis à jour que nous avons obtenus pour couvrir tous les aspects des programmes ministériels relatifs à l'Administration, aux Parcs nationaux et aux Lieux historiques, aux Affaires indiennes et esquimaudes et au développement du Nord canadien.

Le Centre d'information statistique détient toutes les données à la Tour du Centenaire, à Ottawa, pour la plupart, sous forme de documents séparés afin de simplifier la photocopie et la distribution aux usagers. Une demande précise doit parvenir au centre selon les instructions figurant en page vi. Nous ferons l'impossible pour répondre aux demandes avec rapidité et précision. Toutefois, le centre se réserve le droit de refuser les demandes qui ne justifieraient pas le travail et le coût qu'elles exigent.

Pour les usagers d'Ottawa, le centre possède une bibliothèque de référence pour consultation sur place. Malheureusement, nous ne pouvons offrir ce service aux gens de l'extérieur.

Afin de tenir à jour la liste d'envois nous demandons aux usagers de bien vouloir informer la Division des statistiques du Ministère de tout changement d'adresse ou d'annulation de commande. Les usagers trouveront la formule nécessaire au dos du catalogue.

2. Les renseignements fournis par téléphone seront suivis d'une confirmation écrite.
3. Les demandes de renseignements doivent être aussi précises que possible et doivent toujours indiquer le nom et le numéro de téléphone de leur auteur, au cas où l'on aurait besoin de renseignements supplémentaires. Les demandes doivent préciser notamment:
 - a) les numéros des pages du catalogue;
 - b) toutes les statistiques voulues;
 - c) les années pour lesquelles on désire des renseignements;
 - d) la région exacte souhaitée.

Remarque: Seul le total national sera fourni, sauf si l'on demande spécialement le total pour une zone administrative (région, district, agence, parc ou localité).

INTRODUCTION

This is the fifth semi-annual issue of A Catalogue of Data in the Statistical Information Centre, first published by the Department of Indian Affairs and Northern Development in March 1971. Numerous additions have been made to the listings, reflecting new and updated material which has been obtained so as to broaden the coverage of all aspects of the departmental programs in Administration, National and Historic Parks, Indian and Eskimo Affairs and in Northern Development.

All of the data are stored in the Statistical Information Centre in the Centennial Tower, Ottawa, and most are in the form of separate documents enabling specific items to be photocopied and supplied to users. Specific requests should be sent direct to the Information Centre as outlined on page vi. Every effort will be made to meet such demands speedily and accurately although the Centre reserves the right to deny requests which it feels are not justified in terms of the cost and labour involved.

For users in the Ottawa area the Centre maintains a small library of statistical reference books which may be used on the premises. Unfortunately, it is not possible to extend this service to those at distant points.

To keep the mailing list up to date users are requested to notify the Departmental Statistics Division of any cancellations or amendments. There is a form at the back of this catalogue for the convenience of users who wish to have changes made to the listing.

INTRODUCTION

Le ministère des Affaires indiennes et du Nord présente le cinquième catalogue semi-annuel de données du Centre d'information statistique dont la première édition remonte au mois de mars 1971. Nous avons apporté de nombreux compléments au répertoire afin de faire connaître les documents nouveaux et mis à jour que nous avons obtenus pour couvrir tous les aspects des programmes ministériels relatifs à l'Administration, aux Parcs nationaux et aux Lieux historiques, aux Affaires indiennes et esquimaudes et au développement du Nord canadien.

Le Centre d'information statistique détient toutes les données à la Tour du Centenaire, à Ottawa, pour la plupart, sous forme de documents séparés afin de simplifier la photocopie et la distribution aux usagers. Une demande précise doit parvenir au centre selon les instructions figurant en page vi. Nous ferons l'impossible pour répondre aux demandes avec rapidité et précision. Toutefois, le centre se réserve le droit de refuser les demandes qui ne justifieraient pas le travail et le coût qu'elles exigent.

Pour les usagers d'Ottawa, le centre possède une bibliothèque de référence pour consultation sur place. Malheureusement, nous ne pouvons offrir ce service aux gens de l'extérieur.

Afin de tenir à jour la liste d'envois nous demandons aux usagers de bien vouloir informer la Division de la statistique du Ministère de tout changement d'adresse ou d'annulation de commande. Les usagers trouveront la formule nécessaire au dos du catalogue.

COMMENT OBTENIR DES RENSEIGNEMENTS STATISTIQUES

1. Les demandes de renseignements statistiques doivent être adressées au centre d'information statistique, par téléphone, télex, lettre ou note de service. On préfère les demandes écrites, car elles permettent une plus grande exactitude. Les demandes doivent être adressées comme suit:
 - a) dans le cas des demandes par télex, lettres ou notes de service, expédiez au chef, Division de la statistique du Ministère, Ministère des Affaires indiennes et du Nord canadien, Ottawa (Ontario) K1A 0H4;

2. Les renseignements fournis par téléphone seront suivis d'une confirmation écrite.
3. Les demandes de renseignements doivent être aussi précises que possible et doivent toujours indiquer le nom et le numéro de téléphone de leur auteur, au cas où l'on aurait besoin de renseignements supplémentaires. Les demandes doivent préciser notamment:
 - a) les numéros des pages du catalogue;
 - b) toutes les statistiques voulues;
 - c) les années pour lesquelles on désire des renseignements;
 - d) la région exacte souhaitée.

Remarque: Seul le total national sera fourni, sauf si l'on demande spécialement le total pour une zone administrative (région, district, agence, parc ou localité).

INTRODUCTION

This is the sixth semi-annual issue of A Catalogue of Data in the Statistical Information Centre, first published by the Department of Indian Affairs and Northern Development in March 1971. Material is updated on a continuing basis and covers aspects of the departmental programs in Administration, National and Historic Parks and Sites, Indian and Eskimo Affairs and Northern Development.

All of the data are stored in the Statistical Information Centre in the Centennial Tower, Ottawa, and are available in the language in which they are listed in the catalogue. Most are in the form of separate documents enabling specific items to be photocopied and supplied to users. Specific requests should be sent direct to the Information Centre as outlined on page iv. Every effort will be made to meet such demands speedily and accurately although the Centre reserves the right to deny requests which it feels are not justified in terms of the cost and labour involved.

For users in the Ottawa area the Centre maintains a small library of statistical reference books which may be used on the premises. Unfortunately, it is not possible to extend this service to those at distant points.

To keep the mailing list up to date users are requested to notify the Departmental Statistics Division of any cancellations or amendments. There is a form at the back of this catalogue for the convenience of users who wish to have changes made to the listing.

INTRODUCTION

Le ministère des Affaires indiennes et du Nord présente le sixième catalogue semi-annuel de données du Centre d'information statistique, dont la première édition remonte au mois de mars 1971. Le répertoire, sans cesse remis à jour, touche divers aspects des programmes ministériels relatifs à l'Administration, aux Parcs nationaux et aux Lieux historiques, aux Affaires indiennes et esquimaudes et au développement du Nord canadien.

Le Centre d'information statistique détient toutes les données à la Tour du Centenaire à Ottawa. Disponibles dans la langue ayant servi à leur inscription au catalogue, ces données sont pour la plupart sous forme de documents séparés, ce qui en simplifie la photocopie et la distribution. Une demande précise doit parvenir au centre selon les instructions figurant en page iv. Nous ferons l'impossible pour répondre aux demandes avec rapidité et précision. Toutefois, le centre se réserve le droit de refuser les demandes qui ne justifieraient pas le travail et le coût qu'elles exigent.

Pour les usagers d'Ottawa, le centre possède une bibliothèque de référence pour consultation sur place. Malheureusement, nous ne pouvons offrir ce service aux gens de l'extérieur.

Afin de tenir à jour la liste d'envois nous demandons aux usagers de bien vouloir informer la Division de la statistique du Ministère de tout changement d'adresse ou d'annulation de commande. Les usagers trouveront la formule nécessaire au dos du catalogue.

2. Les renseignements fournis par téléphone seront suivis d'une confirmation écrite.
3. Les demandes de renseignements doivent être aussi précises que possible et doivent toujours indiquer le nom et le numéro de téléphone de leur auteur, au cas où l'on aurait besoin de renseignements supplémentaires. Les demandes doivent préciser notamment:
 - a) les numéros des pages du catalogue;
 - b) toutes les statistiques voulues;
 - c) les années pour lesquelles on désire des renseignements;
 - d) la région exacte souhaitée.

Remarque: Seul le total national sera fourni, sauf si l'on demande spécialement le total pour une zone administrative (région, district, agence, parc ou localité).

INTRODUCTION

This is the semi-annual issue of A Catalogue of Data in the Statistical Information Centre, first published by the Department of Indian Affairs and Northern Development in March 1971. Material is updated on a continuing basis and covers aspects of the departmental programs in Administration, Parks Canada, Indian and Eskimo Affairs and Northern Development.

All of the data are stored in the Statistical Information Centre in the Centennial Tower, Ottawa, and are available in the language in which they are listed in the catalogue. Most are in the form of separate documents enabling specific items to be photocopied and supplied to users. Specific requests should be sent direct to the Information Centre as outlined on page vi. Every effort will be made to meet such demands speedily and accurately although the Centre reserves the right to deny requests which it feels are not justified in terms of the cost and labour involved.

For users in the Ottawa area the Centre maintains a small library of statistical reference books which may be used on the premises. Unfortunately, it is not possible to extend this service to those at distant points.

To keep the mailing list up to date users are requested to notify the Departmental Statistics Division of any cancellations or amendments. There is a form at the back of this catalogue for the convenience of users who wish to have changes made to the listing.

INTRODUCTION

Le ministère des Affaires indiennes et du Nord présente le catalogue semi-annuel de données du Centre d'information statistique, dont la première édition remonte au mois de mars 1971. Le répertoire, sans cesse remis à jour, touche divers aspects des programmes ministériels relatifs à l'Administration, aux Parcs Canada, aux Affaires indiennes et esquimaudes et au développement du Nord canadien.

Le Centre d'information statistique détient toutes les données à la Tour du Centenaire à Ottawa. Disponibles dans la langue ayant servi à leur inscription au catalogue, ces données sont pour la plupart sous forme de documents séparés, ce qui en simplifie la photocopie et la distribution. Une demande précise doit parvenir au centre selon les instructions figurant en page vi. Nous ferons l'impossible pour répondre aux demandes avec rapidité et précision. Toutefois, le centre se réserve le droit de refuser les demandes qui ne justifieraient pas le travail et le coût qu'elles exigent.

Pour les usagers d'Ottawa, le centre possède une bibliothèque de référence pour consultation sur place. Malheureusement, nous ne pouvons offrir ce service aux gens de l'extérieur.

Afin de tenir à jour la liste d'envois nous demandons aux usagers de bien vouloir informer la Division de la statistique du Ministère de tout changement d'adresse ou d'annulation de commande. Les usagers trouveront la formule nécessaire au dos du catalogue.

INTRODUCTION

This is the semi-annual issue of A Catalogue of Data in the Statistical Information Centre, first published by the Department of Indian Affairs and Northern Development in March 1971. Material is updated on a continuing basis and covers aspects of the departmental programs in Administration, Parks Canada, Indian and Eskimo Affairs and Northern Development.

All of the data are stored in the Statistical Information Centre in the Centennial Tower, Ottawa, and are available in the language in which they are listed in the catalogue. Most are in the form of separate documents enabling specific items to be photocopied and supplied to users. Specific requests should be sent direct to the Information Centre as outlined on page 6. Every effort will be made to meet such demands speedily and accurately although the Centre reserves the right to deny requests which it feels are not justified in terms of the cost and labour involved.

For users in the Ottawa area the Centre maintains a small library of statistical reference books which may be used on the premises. Unfortunately, it is not possible to extend this service to those at distant points.

To keep the mailing list up to date users are requested to notify the Departmental Statistics Division of any cancellations or amendments. There is a form at the back of this catalogue for the convenience of users who wish to have changes made to the listing.

INTRODUCTION

Le ministère des Affaires indiennes et du Nord présente le catalogue semi-annuel de données du Centre d'information statistique, dont la première édition remonte au mois de mars 1971. Le répertoire, sans cesse remis à jour, touche divers aspects de programmes ministériels relatifs à l'Administration, aux Parcs Canada, aux Affaires indiennes et esquimaudes et au développement du Nord canadien.

Le Centre d'information statistique détient toutes les données à la Tour du Centenaire à Ottawa. Disponibles dans la langue ayant servi à leur inscription au catalogue, ces données sont pour la plupart sous forme de documents séparés, ce qui en simplifie la photocopie et la distribution. Une demande précise doit parvenir au centre selon les instructions figurant en page 6. Nous ferons l'impossible pour répondre aux demandes avec rapidité et précision. Toutefois, le centre se réserve le droit de refuser les demandes qui ne justifieraient pas le travail et le coût qu'elles exigent.

Pour les usagers d'Ottawa, le centre possède une bibliothèque de référence pour consultation sur place. Malheureusement, nous ne pouvons offrir ce service aux gens de l'extérieur.

Afin de tenir à jour la liste d'envois nous demandons aux usagers de bien vouloir informer la Division de la statistique du Ministère de tout changement d'adress ou d'annulation de commande. Les usagers trouveront la formule nécessaire au dos du catalogue.
